2017 Five Year Financial Plan
as Amended on October 30th, 2017

The *Community Charter* requires certain information be presented as part of the Five Year Financial Plan. The following Section citations reference the *Community Charter*:

1. Portion of Funding from Revenue Sources (Section 165 (3.1)a)

Table One (1) shows the proportion and value of the total revenue proposed to be raised from each funding source in 2017. Property value taxes form the greatest percentage of the revenue of the municipality. The property taxation system is relatively easy to administer and understand. It provides a stable and consistent source of revenue for many services that are difficult or undesirable to fund on a user-pay basis. These include services such as fire protection, police protection, bylaw enforcement, libraries, and street lighting. For these reasons, property value taxation will continue to be the major source of municipal revenue.

User fees and charges form the second largest portion of planned revenue. Some municipal services, such as: water, sewer, solid waste utilities, recreation and transit usage, can be measured and charged for on a user-pay basis. This basis attempts to fairly apportion the value of a municipal service to those who make use of it.

Table 1

Funding Source	Percentage (%) of Revenue	Amount (\$)
Municipal Property Taxes	25%	15,777,000

Schedule "A"

CITY OF PRINCE RUPERT

2017 Five Year Financial Plan
as Amended on October 30th, 2017

Objective

- Council will attempt to increase the proportion of City revenue that is derived from sources other than property taxes.

Policy

- Council has begun to review the fees charged for various services to ensure that the users of the service are paying a fair portion of the operating and capital cost of the service;
- Council will supplement infrastructure expenditures by aggressively pursuing federal and provincial grants; and,
- Council will encourage staff to develop new revenue sources.

2. Distribution of Property Value Taxes (Section 165 (3.1)(b))

The City of Prince Rupert determines the current tax rate for each property class by first adjusting the prior year's tax rate by the BC Assessment generated statistic for *Change in Property Assessment Market Value* for that property classification. The adjusted tax rate is then increased or decreased by the percentage tax increase that Council has set for the current Financial Year.

By providing this consistency, taxpayers in the various classes have stability and confidence in knowing how their future tax bills will be calculated. The City also is required to follow the Provincial Regulation which sets the maximum rates for Port Property Taxes at \$27.50/\$1,000, and \$22.50/\$1,000 for property and buildings that are listed in the Regulation.

Table Two (2) shows the current property tax revenues of each classification:
